

BIOGRAPHIE

OXIDIX

DOWNTEMPO | SHAMANICA | ORGANICA

Manuel Tröhler aka OXIDIX is a DJ, turntablist, remixer and producer from the Swiss capital Bern. Known for his sophisticated sampling, his DJ skills and as a backup MC for various band formations in the fields of hip hop, world and electronic, OXIDIX can always be found year in, year out on all kinds of stages. In 2010 he completed a two-year Swiss tour with rapper & beatboxer STEFF LA CHEFFE. Inspired and spurred by a 19-month world trip through Asia, Africa and South America in 2012 and 2013, OXIDIX's field of work has steadily expanded. With his diverse, always surprising DJ sets, his live electro project THE LUGUBRIOUS and his collaboration with the multi-award-winning Basel rapper LA NEFERA, the producer and DJ has been able to prove how versatile and promising his work is in the live and production fields.

OXIDIX's own compositions move somewhere between downtempo, electronic and hip hop. His music blends together the rhythms, melodies and mythologies of different continents with the sounds of the forest, the chirping of crickets, trickling stones and crackling leaves. The organic textures intertwine smoothly with a modern electronic sound aesthetic. Pumping, crispy beats bounce in the foreground, while a variety of self recorded instruments create a dreamscape full of depth and mysticism. A dreamy, warm and melodic trip that entrances as much through headphones as it does on the dancefloor.

For lovers of El Búho, Nicola Cruz, Mose and Yeahman.

OXIDIX has already participated in the following music projects: Steff la Cheffe, The Lugubrious, La Nefera, The Phanamanation, Dopestum, Churchhill, Sa Mood and others.
